

## LET'S PLAY!

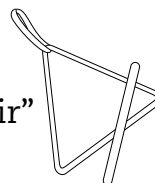

Chef Figaro has some easy ideas for adding instruments to his favourite song. Here are a few simple ideas to try.

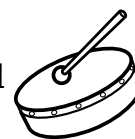

“nom-a-nom-a-nom” – jingle your keys  
or bells to these words

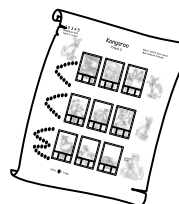

“stir it up” – tap a triangle on the word “stir”

“Come taste my soup...” – Play your hand drum *forté* loud

## MUSIC MAP

**Level 1: Play audio file 1 as you follow the map.**

Follow the squiggles, dots and lines to the rhythm of the music. The order of the music can also be called the “form”. Look at the form on the bottom of the page to help as you follow along in the correct order.

**Level 2: Play audio file 2 as you follow the map.**

Chef Figaro loves to follow the map while listening to the orchestral music on track 2. If you sing the words in your head while following the map, it seems much easier. Good Luck!
